She told a Post-Dispatch reporter that he said nothing to explain his attempt on his life, before or after he had stabbed himself.

He had become quiet as the ambulance was crossing the Eighteenth street bridge, and the officers relaxed their watch over him. Suddenly, he jumped up and over the vacant seat beside Driver Henry.

Strength Astounding.

One of the policemen held to him and was dragged half way out of the wagon by Kenney, who had reached the ground. The other scrambled through the end door and caught Kinney on the outside. He was persuaded to continue the ride then, without further objection.

At the hospital he was strapped to his cot, but bursted the straps over his arms and shoulders with the slightest

A Recept nittee of 100 citizens and Lieuten int-Governor Winston welcomed the President to the State in the for ence of Gov. There was a volley of cheers, which se again and again as the Presider passed on the street in his carriage powing to the right and left, standing and waving his hands in pleasan

The President said in part: President Roosevelt's Speech

"North Carolina's part in our history has ever been high and honorable. It was in North Carolina that the Mecklenburg Declaration of Independence foreshadowed the course taken in a few short months by the epresentatives of the thirteen colories assembled in Philadelphia. North nies assembled in Philadelphia. North Carolina can rightfully say that she pointed us the way which led to the formation of the new nation.

"In the Revolution she did many memorable deeds, and the battle of King's Mountain marked the turning point of the Revolutionary war in the South.

"But I congratulate you not only the proper your past but upon your pres-

and followed. I saw the policeman catch hold of him and take him away.

"I believe the reaction after several days of hard drinking caused him to do it. He did not drink yesterday, the first day that he did not since Sunday. I think.

"Mr. Kinney had sustained some slight lesses by his mining investments, but nothing very large that I know of. When encountered by Policemen Smirl and Coffee of the Tenth District, near his home. Kinney was covered with blood. He had stabbed himself several times, but did not appear to be weak-ened.

He made but little resistance to arrest, but on the way to the hospital in the contract of the policemen in the policement in the number of industry, but of that good citizenship which rests upon individual rights and other words, of that good citizenship which rests upon moral integrity and intellectual freedom.

I congratulate you not only upon the great industrial activity shown in your Commonwealth, an industrial activity which, to mention but one thing, has placed this State second thing, has placed this State second into means the promotion not only of industry, but of that good citizenship which rests upon individual that he has duties as well as rights—that he has duties the promotion not only of industry. "The man must be decent in his home life; his private life, of course; but this is not by itself enough. The man who fails to be honest and brave both in his political franchise and in his private business contributes to political and social anarchy.

"Self government is not an easy thing. Only those communities are fit for it in which the average individual.

Only those communities are fit for it in which the average individual prac-tices the virtue of self-command, self-restraint, of wise disinterestedness com-bined with wise self-interest; where the individual posseses common sense, honesty and courage.

North Carolina has a special concern. The preservation of the forests is vital to the weifare of every country.

Is our forest wealth. Neither state nor nation can afford to turn these mountains over to the unrestrained greed of those who would exploit them at the expense of the future.

"These forests are the best defense against the floods which, in the recent past, have, during a single 12-month, destroyed property officially valued at nearly twice what it would cost to buy the Southern Appalachian Reserve. The maintenance of your Southern water powers is not less important than the prevention of floods, because if they they are injured your manufacturing interests will suffer with them.

"I do not believe in Government own-

terests will suffer with them.

"I do not believe in Government ownership of anything which can with propriety be left in private hands, and, in particular, I should most strenuously object to Government ownership of railroads. But I believe with equal firmness that it is out of the question for the Government not to exercise a supervisory and regulatory right over the railroads; for it is vital to the wellbeing of the public that they should be managed in a spirit of fairness and justice toward all the public.

Concede Egger's Demands.
They conceded the justice of Mr. Egger's demands and admitted that they could not under the circumstances record on the Fidelity people the exact facts in connection with the obligations of his bank to the defunct Salmon institution. Both here and in Clinton there is considerable feeling over the refusal of Secretary of State Swanger to furnish the public a statement of the affirm of the holds that this is a confidential matter.

The girl's grief and despair when she found she had lost the money, which was tied in a colored handkerchief, was pathetic. "Quick Steel" Heaters Are Built on Practical Principles The smoke goes up the chimney and NOT IN THE ROOM.

SOME ITS GOOD

The top on Quick Steel Heaters has no opening, while in other heaters you must feed from opening in top. This allows smoke to come into the room, while Quick Steel Heaters force smoke up the chimney.

Quick Steel Heaters have a sectional air-blast firepot, which consumes most of the gas and soot, and is practically POINTS of the gas and indestructible.

Bosses of Federal Clerks Given Limited Rights by the President.

NCREASE IN POLITENESS

Employes in Federal Building More Deferential to Superiors Than Formerly.

Clerks in the Federal Building are saying "Good morning" very distinctly these days on the arrival of their of-ficial chiefs. Cigars have been appear-ing mysteriously on the desks of heads of departments, and inquiries regarding health are becoming common.
Every method of "jollying the boss"
known among employes of private business establishments is being earnestly, even if cautiously tested.

Time was, but a few days ago, when few of the clerks looked up at the apfew of the cierks looked up proach of a department chief, and when "the old man" of each office was not regarded as He-who-must-be-obeyed.

of regarded as He-who-must-be-obeyed. Then came President Roosevelt's order giving heads of offices the right to dismiss summarily employes, whether holding their positions under civil service rules or not. This brought the change. Right to Fire, but Not to Hire. There are clerks in the Federal Building whose tenure under the civil service law has lasted 20 years. Heads of departments have come and gone, and these clerks have come to pay little attention to them.

these clerks have come to pay little attention to them.

"I say unto him, do this, and ne doeth it" is an ideal of the relations of superior and subordinate which have not been realized in the Federal Building in the last few years. Some have taken things as they found 'hem, and some have longed for the outside business man's right to hire and fire. The President has heard the complaints of the latter, and has given them the right to fire, though not to hire.

Under the new order a formal report to the Civil Service Commission from the head of a department that an employe is unsatisfactory is sefficient to bring about his removal.

Busy Bee Bargain Day Tomorrow. WILL ISSUE \$135,000,000. Government Will Sell Bonds to

Build Panama Canal. washington, Oct. 19.—It is an-WASHINGTON, Oct. 19.—It is announced officially that the Government will sell bonds to secure funds with which to construct the Panama Canai, as was predicted in Post-Dispatch dispatches several weeks ago.

The total amount of the bond sales will be \$135,000,000, and \$60,000,000 of this will be \$135,000,000, and \$60,000,000 of this will be covered in the Treasury to wipe out the deficit. This amount has already been expended by the Treasury. It is not the intention of the administration to sell the \$135,000,000 at one time. They will be sold in lots of \$25.000,000, and the bonds will be delivered in small lots and paid for, the interest to begin when the bonds are actually sold. This plan will save the Government considerable interest.

FOUR COURTS' NEW LID. New Roof Decided On to Keep

Out the Rain. Out the Rain.

There will be a new lid on the Four Courts if the present plans of Bullding Commissioner Smith are not nolle prosed.

The downpour Wednesday started several freshets in the various cellings nearest to the roof, and created such havec in newly papered rooms that a new roof was immediately decided upon.

According to estimates, a new roof can be laid on the east and west towers and the Clark avenue dome removed for less money than it would cost to repair them.

The weight of the dome and towers is causing the bullding to settle, and it is believed that with this rressure removed, a roof could be laid that would keep out most of the rain.

SMUGGLED PEARLS

Secret Service Men Arrest New York Society Woman in Madison Square.

MAY BE CONFISCATED

Fair Smuggler Surrenders Treasure and Puts Up Duty and Penalty.

By Leased Wire From the New York Bureau of the Post-Dispatch. NEW YORK, Oct. 19.-Within the ast few weeks a young society woman of this city and Newport has led se-cret service of the Treasury Departent of the United States Government a chase of nearly 3000 miles in an effort to prevent their seizing a pearl neckace, valued at \$22,000, which she smuggled into the country.

The name of the woman is a closely guarded secret of the Treasury Departent. Nevada N. Stranahan, collector the port, admits the necklace is now n his possession, together with \$13,000, the duty and penalty, but says the case is not yet closed. He is awaiting intructions from Washington, having nade a full report. The entire affair may be taken before the United States ommissioner Shields and the young oman may have to face public The chase led from this city to Philaelphia, thence to Chicago and to Boson. From there the young woman, believing the chasers shaken off, came New York, and went to her town

Caught in Madison Square, several nights ago when the young woman suddenly found herself confronted by two secret service agents in a box in the Madison Square Garlen. About her neck was a string of pearls.

She was threatened with arrest uness she surrendered the pearls at once. Overcome with humiliation, the young woman swore that the necklace she woman swore that the necklace sine wore was a valuless batule, compared with the original which she had caused to be smuggled through the customs house. She said that the gems were paste and begged that she be not publicly disgraced by being taken into custody before the audience and her own triends. She promised to surrender the smuggled necklace at the office of Collector Stranahan on the following morning.

This arrangement was agreed to. She lid not appear at the office of the Co ector of the Port on the following morning and secret service agents we

sent to her home.

They were informed by servants that she was not at home. A watch was set on the house.

At noon an attorney, representing the woman, called at the office of the Colector of the Port, asking what was the treport of duty. amount of duty.

He was toid that the pearl necklace
must be surrendered to the Treasury
Department. The attorney objected,
saying that the young woman would
never consent.

Forced Surrender of Necklace.

Collector Stranahan insisted that the surrender be made, and, tearfully, the young woman gave up the jewels. Her attorney agreed to pay the amount of the duty, plus the added penalty for smugging. He deposited a check for \$13,000.

Sil,000. A report was made to Washington, and upon the verdict of the Treasury Department officials will depend whether the necklace is confiscated, or the amount of duty and penalty be accepted as sufficient punishment.

The Treasury Department learned of the purchase of the necklace abroad, and special agents were notified to look for it among the jewelry invoices. When it was found it was decided that it had been smuggled into the coun-

Busy Bee Bargain Day Tomorrow. MARRIED FROM CONVENT.

Bishop Andrews' Great-Granddaughter Weds Gambler.

Special to the Post-Dispatch.

NEW YORK, Oct. 19.—Mr. and Mrs.
John F. Olive were married on Monday at the Convent of Our Lady of the Tenacle, and sailed on the Baltic yesterday.

Mr. Olive is president of the Dane County Guarantee and Trust Co., and proprietor of a gambling casino at Miami, Florida.

The bride was Miss Mary Nivera Abrams, great-grand daughter of Bishop.

The bride was Miss Mary Nivera Abrams, great-granddaughter of Bishop Andrews, late Bishop of the Protestant Episcopal diocese of Albany. Having renounced the Angelican faith, she had been for some time a ward of Archbishop Farley, and until her marriage she was a lay sister at the convent, where 13 professed nuns and 10 lay sisters are in retreat.

Miss Abrams met Mr. Olive at Miami, where she and her mother spent the last two winters. The marriage ceremony was the first to be celebrated within the new convent.

The Miami casino is as well known to the winter colony of Florida as the casino at Palm Beach or Monte Carlo to the sojourners in the Riviera.

POLICE ON NEW BEATS. Widespread Shakeup in Eighth District.

"For the good of the service," the

half a hundred or so patrolmen and Sergeants of the western half of the Eighth district have been directed to change beats with the half a hundred or so of the eastern half. Capt. Peter Joyce of the Manchester Avenue Station, in charge of the district, passed out the order, saying it came from Chief of Police Kiely.

The Sergeants are given command of different squads, so that aside from the continuance of Capt. Peter Joyce as the district head, the Eighth district organization now presents a very much altered appearance. Only about 10 men were continued in their old beats, being those in the extreme northern and southern limits of the district. Those who walked the Chestnut street territory were changed.

Several other changes, less radical, were announced, in other districts.

After a most thorough and unprejudiced examination by experts connected with the analytical department of this great publication, not the slightest trace was found of any of the dangerous drugs commonly used in a great number of remedies. The most searching chemical tests failed to show the presence of any fnimical drug or harmful ingredient in the smallest quantity.

The fact that this remedy is a genuine specific cure for the allments claimed is borne out by the writer's own professional experience and the statements of a large number of patients throughout the country who have obtained a cure through "Vaucaire Galega Tablets" when every other remedy recognized in materia medica had proved utterly unavalling.

Dr. Wynham further says: We have no hesitancy in commending "Vaucaire Galega."

The trace of the slightest trace was founded to the family visited to join some church or Sunday School. They read in part as follows in the former visitations: "Come! You the most cordially invisited to attend services at the church and Sunday and thereafter. You will receive a hearty welcome." The basic text of the visitation is Luke 10, 1.: "The Lord sent them two and two." Protestant denominations. them two and two."

Dr. Wynham further says: We have no hesttancy in commending "Vaucaire Galega Tablets" as strongly as we condemn worthless nostrums. He also states that not only should this remedy be considered essential and indispensable but it should be prescribed by the physician in the many cases where the regular remedies recognized by the science of medicine will not reach and cure the patient's disease. He further adds that Vancaire Galega Tablets should receive the sanction and approval of every medical journal and hygienic publication throughout the land, and unhesitatingly bestows upon "Vancaire Galega Tablets" the unqualified editorial indorsement of the New York Health Journal.

THE POLICY OF INACTION.

The fatal objection to the argument issued by Mr. T. S. And at the same time it was the reason for half the wife desertions that occur.

Women have acquired many rights in the last 50 rears. And they are struggling for many more which they will ultimately attain. But no wor has ever had, or ever will have, the right to have a bad temper.

"Brain of ice, hand of steel, heart of fire, clear vision, and cold, steady grasp of the lever, and masterful and yet a passionate relentlessness."

This is Senator Beveridge's recipe for masculine effectiveness in his book of advice to young men.

And there is no reason why women should not apply it to themselves, and realize the value of the brain of ice, particularly when opposed to another that is a fiery caldron seething noise and fury.

The violent man or woman is always at a disadvantage in a quarrel. He is just as much at the mercy of a coldly scientific antagonist as the unwary amateur who tries to "rush" a professional

While he is busy spouting meaningless sound, the roman with her wits about her can say two or three things that get under the skin with the jab bing fatality of a hypodermic, and preserve her selfrespect into the bargain-something that she will certainly lose if she permits her temper to get the better of her.

Quarreling of all sorts is to be deplored, But if we must quarrel, let us keep our tempers.

There is nothing that men more universally and utterly despise than a meek woman. I have always thought the story of Patient Griselda a satire on the feminine ideals of her time. But a woman in an ineffective fury is just as pitiful.

Insults should always be served frapped like absinthe or creme de menthe, and to de this we have, of course, to shave little pieces off the "brain of ice" that Senator Beveridge recommends.

Personally, I don't believe in quarreling under any circumstances. But whether we quarrel or not, let us keep our tempers. For that is the price both of continued beauty and self-esteem.

Torrence, head of the Standard Manufacturing Co., and a leading Republican; former State Senator Arthur Kennedy and Clark, the cashier. In one deal, which the Enterprise National backed heavily, they sold an option on railroad property to the Santa Fe Railroad. The option meant a fortune, II. 600,000, should it be closed; the Santa Fe people let it expire on Saturday last.

Clark is dead. Torrence, it is said, is dving of a disease. Andrews is here from New Mexico, and a Post-Dispatch correspondent asked him about his business connection with the bank and Clark.

Said Andrews, calmly: "Yes, I've heard Clark is deed. Too bad, ain't it? Me? Oh, I don't know anything about the bank's affairs. Clark, Torrence and Kennedy took care of the financial end of things. I do not know anything about it."

The Compete Angler.—Yes, the bass is the wiliest of the funny tribe all right, as this little incident will show. One day while engaged in my favorite pursuit, I dropped a valuable diamond ring in the water. The following day I cast my line near the spot where the ring disappeared and soon landed a five-pound bass. Now, what do you suppose the camp cook found inside that fish?
The Chorus of Novices.—Haw! Haw! Haw! The missing lewelry, of course!
The Complete Angler.—Ah, you seem to forget about the willness of the bass. What the cook really found was a pawn ticket for the ring!
